

## science you can trust...

Alba Science is a leading UK Contract Research Organisation specialising in the design and delivery of safety, efficacy, sun and specialist product testing studies for the cosmetics, household, haircare, and other consumer markets worldwide. Assistance can be given at every stage of new product development, from laboratory and consumer testing through to statistical analysis, marketing and claim substantiation, whatever your requirements.

With a wealth of experience in consumer product research, we offer comprehensive consultancy in Dermatology, Ophthalmology, Chiropody, Trichology, Gynaecology and Microbiology advising on optimal study design to achieve maximum benefit.

With a global reputation for quality, unparalleled level of service and customer satisfaction, Alba Science is fast becoming the acknowledged leader in its field. We are ISO 9001:2008 (Quality Management) certified. Alba Science follow GCP Guidelines and adopt the highest quality procedures. Our business framework is ethical, respecting environmental policies.

Why choose Alba Science?
